

Battlestar Galactiga Boardgame

Suggested Additional rules

by Tommi Ojala

Increased Impact of Quorum

The President can use Quorum cards to add Politics skill cards to the Skill checks on Crisis Cards. At the same time as the President adds his cards to the Skill Check, he can discard **up to three** Quorum cards from his hand. For every discarded card, add one Politics card face down from the Politics Skill deck to the Skill Check.

Increased Impact of Treachery

0 or Negative Total Value for a Skill Check

When a Skill Check totals up to “0” or a negative value, that Skill Check automatically counts as being a Reckless Skill Check. Resolve every Skill check, even those that players agree not to vote on (and therefore automatically accept the failed result) to see if the Check totals up to a negative value due the cards from the Destiny deck.

Discarding Treachery Cards

Discarding Treachery cards can trigger the effect described on the “By Your Command” card. As soon as any human player discards one or more Treachery cards, reveal equal amount of cards from the Treachery Skill card deck. For each “By Your Command” revealed, resolve that card effect once immediately, and then place the cards in the discard pile. Cylon players are free to play a Sabotage card on top of this effect.
